# About Us

We are the industry leading provider of Mobile Vertical Cultivation Systems. We have systems installed in several hundred indoor grow facilities across North America and Europe!

Our team is far from “green” to the cannabis industry. The Pipp Horticulture and Greenhaus Industries teams combine over 40 years of mobile storage experience with cannabis industry experts that have over 30 years of operational experience in commercial agricultural and seed-to-sale production. To date we’ve designed, built and consulted on more than two million sq. ft. of cultivation facilities. As a result, we understand and know how to eliminate many of the pitfalls and obstacles new operators face.

**Established  
in 2012**

”

We chose to go Multi-Level & Mobile with Greenhaus as a cost-effective, easy and a fast way to increase our yields.

**BILL PARKER**  
CEO, LEAFLINE LABS

## Our Grow Trays

### ABS Grow Trays

ABS Corrugated Grow Trays from Pipp Horticulture can be utilized for Drip-to-Drain irrigation styles. Made from durable ABS construction, these grow trays are thermoformed with a co-extruded acrylic cap to provide UV-stability, as well as anti-microbial and fungal-resistant properties. These trays sit level to provide flat attachment points for lighting and air circulation, and they feature a sloped deck and network of canals within the tray to ensure proper drainage away from plants to the drain location. \*U.S. Patent No. D906,876 S and U.S. Patent No. 11,116,148. Additional U.S. patent pending.

### Drip-To-Drain Grow Trays with Optional Inserts\*

Drip-to-Drain Grow Trays are perfect for Drip-to-Drain irrigation vertical grow systems. They feature optional HDPE Inserts that are fungal-resistant and anti-microbial. They are available in 8'x4', 8'x3', 4'x4', and 4'x3' dimensions. \*U.S. Design Patent No. D925,392.

### Wire Grid

Round wire welded in a 2" x 4" pattern. Ideal application for wire grid is as a hanging lattice for drying rooms. Wire grid is available for operations providing their own tray solutions. Includes powder coated steel supports for attachment points for lights, air circulation, and plumbing.

### Combination Grow Trays with Optional Inserts\*

Combination Grow Trays can be used for Drip-to-Drain or Ebb-and-Flow irrigation styles. They are combined with our Vertical Grow Racking and Mobile Carriages to provide the most efficient indoor grow space and are available in 8'x4', 8'x3', 4'x4', and 4'x3' dimensions. They feature optional HDPE Inserts that are fungal-resistant and anti-microbial. U.S. Design Patent No. D906,876.

\*Made to order, longer lead times will apply.  
Check with your sales person for details.

# Grow Tray Add-Ons

## HDPE Inserts

- Designed for use with Combination or Drip-To-Drain Trays.
- HDPE material is fungal-resistant and anti-microbial.
- Tapered design to provide a level surface for plants.
- Creates space for air circulation and water runoff underneath plants in order to maintain healthy roots.
- Slides easily for access to rear plants.
- Easily removable for fast and efficient cleaning.

## Straight Drain Fitting

- 1" Threaded Bulk Head Fitting.
- Designed for 1.28" Thru Hole.
- Accepts NPT Fittings.
- 1" NPT External Stem – for attachment to elbows or couplers.
- 3/4" NPT Internal Stem – for attachment to barbed fitting couplers.
- Larger bore diameter allows great GPM Flow.
- Course screen blocks large debris while allowing finer sediments to pass through without clogging drainage.
- Channels in stem lip require less build-up of water before drainage begins.

# ACCESSORIES CARTS & LOCKERS

## Drying Cart

The Drying Cart is designed to accommodate hanging plants in order to dry them out for further processing. It has adjustable cantilever-style finger attachments which allow you to configure the cart as needed. The drying cart is an essential part of the cultivation process that can provide an increase in production and help streamline your workflow.

## Shelf Cart

The versatile Shelf Cart can be used for both general storage and transporting goods. The shelf levels are adjustable and additional shelves can easily be added to the cart to customize it to suit your needs.

## Combo Cart

The multi-purpose Combo Cart combines our exclusive hanging attachment for drying out plants with adjustable shelves below for general storage and transport needs.

## Nested Drying Rack

The Nesting Drying Rack delivers ease of use, safety, and long life. Super heavy-duty construction combined with standard 5" swivel non-marring casters provides a 1,000 lb. total load capacity. Z-Base allows for nesting when not in use.

# ACCESSORIES CARTS & LOCKERS

## Wire Cart

These durable and highly functional carts are ideal for mobile storage requirements. The open wire construction minimizes dust/dirt accumulation and maximizes airflow as well as visibility. Also available as a Lockable Security Cage.

## Secured Storage

- Robust pry-resistant doors.
- Fully welded closed tube frame.
- Three point rod locking mechanism.
- Tamper proof hardware.
- Easy visual inspection of product with 1.5" x 1.5" grid spacing.
- Update security anytime with Interchangeable Cylinder Lock.
- Secured in place with 3/8" seismically approved concrete anchors.
- Store any size product with adjustable shelf spacing on 1 - 1/2" increments.

## C-Thru Lockers

C-Thru Lockers offer a unique approach to storing personal belongings while allowing others to visually inspect the contents without the need to open the locker. They are roomy enough for just about any secured storage application.
